

JIGSAW Weekly Update

By Dan Post

The HACC2020 is heating up and the challenges are unfolding. I am part of the Jigsaw team focused on the First Lady Dawn Amano-Ige which is for a Hawaii State Resource Directory. My role on the team is powerapps knowledge and technical assistance, and of course what our leader Leanne tells me to do. Below is a document I needed to create a baseline for my team using the PowerPlatform and starting to make recommendations towards the apps we as a team can provide. For this weekly update I'll walk the reader through the PowerPlatform baseline and then an example of the app we as a team has started to create. Of course any feedback would be valuable and insight is always appreciated.

1. Download the app data from our group repository on GitHub.

Navigate to <https://github.com> and login

The image shows the GitHub sign-in page. At the top is the GitHub logo (Octocat). Below it is the text "Sign in to GitHub". The main form has two input fields: "Username or email address" with the value "danPostOutlook" and "Password" with masked characters ".....". To the right of the password field is a link "Forgot password?". Below the inputs is a green "Sign in" button. At the bottom of the form is a link "New to GitHub? Create an account.". At the very bottom of the page are links for "Terms", "Privacy", "Security", and "Contact GitHub".

Select the HACC2020/jigsaw repository

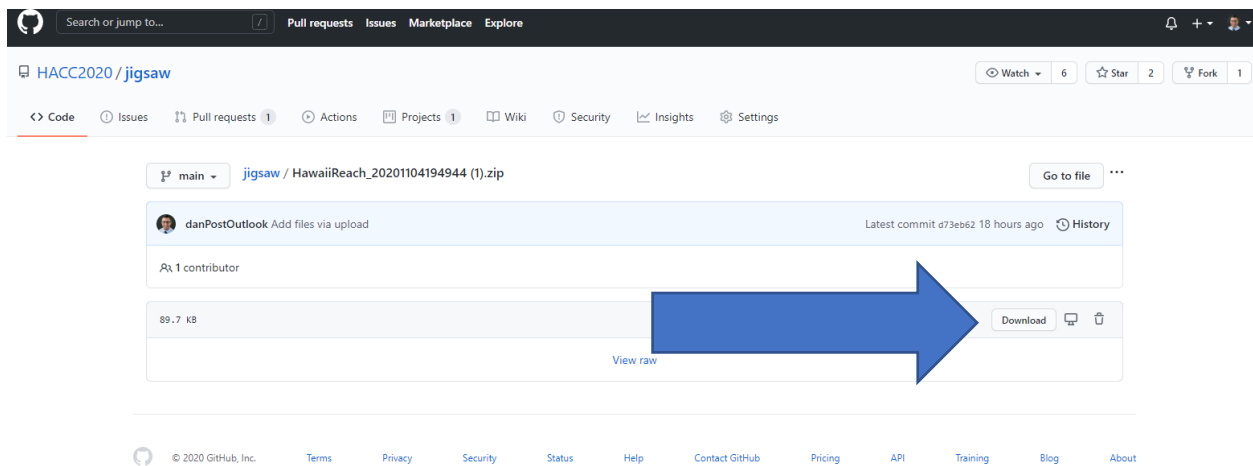

The screenshot shows the GitHub homepage for the user **danPostOutlook**. The top navigation bar includes links for Pull requests, Issues, Marketplace, and Explore. The main content area is divided into two columns. The left column, titled 'Repositories', lists several repositories: **HACC-2020/JIGSAW**, **danPostOutlook/jigsaw-1**, **HACC2020/jigsaw** (highlighted with a blue arrow), **danPostOutlook/JIGSAW**, and **HACC-2020/FamilyResourceDirectory**. The right column, titled 'Recent activity', shows a pull request for **HawaiiReachV1** and a section for 'All activity'. A large blue arrow points from the 'HACC2020/jigsaw' repository in the left column to the 'HawaiiReachV1' pull request in the right column.

Select the “HawaiiReach_20201104194944 (1).zip”

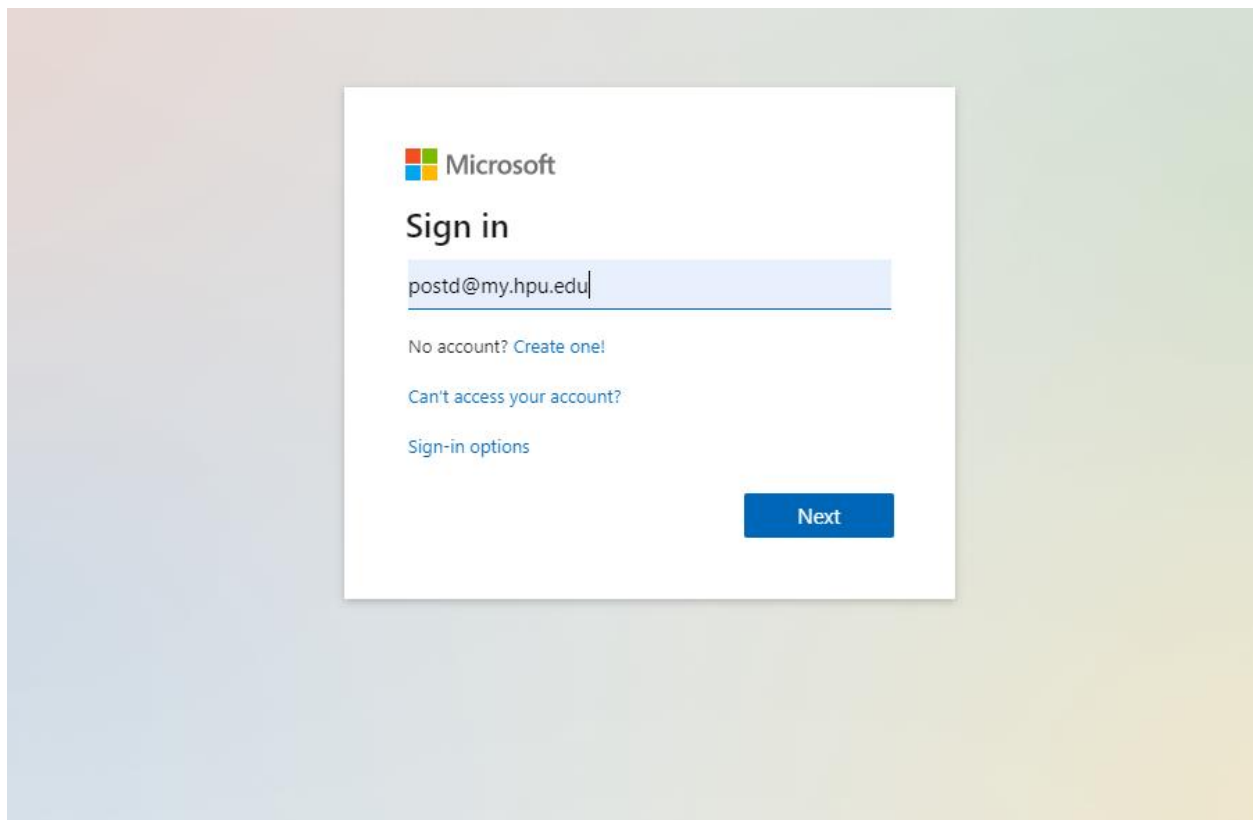

The screenshot shows the GitHub repository page for **HACC2020 / jigsaw**. The repository is owned by **danPostOutlook** and has 2 branches and 0 tags. The file list shows the following files: **HawaiiReach_20201104194944 (1).zip** (18 hours ago), **LICENSE** (3 days ago), and **README.md** (3 days ago). A blue arrow points to the **HawaiiReach_20201104194944 (1).zip** file. The right sidebar contains sections for 'About', 'Releases', 'Packages', and 'Contributors'.

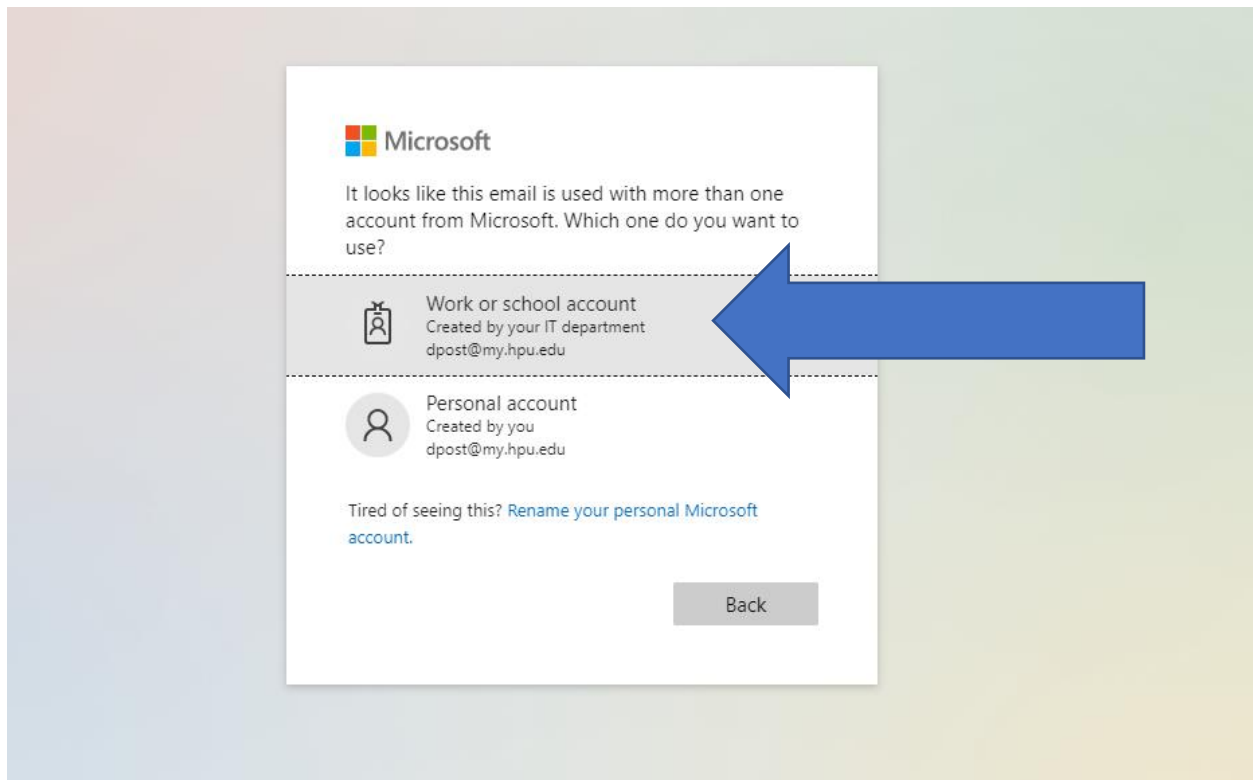

Select the download button

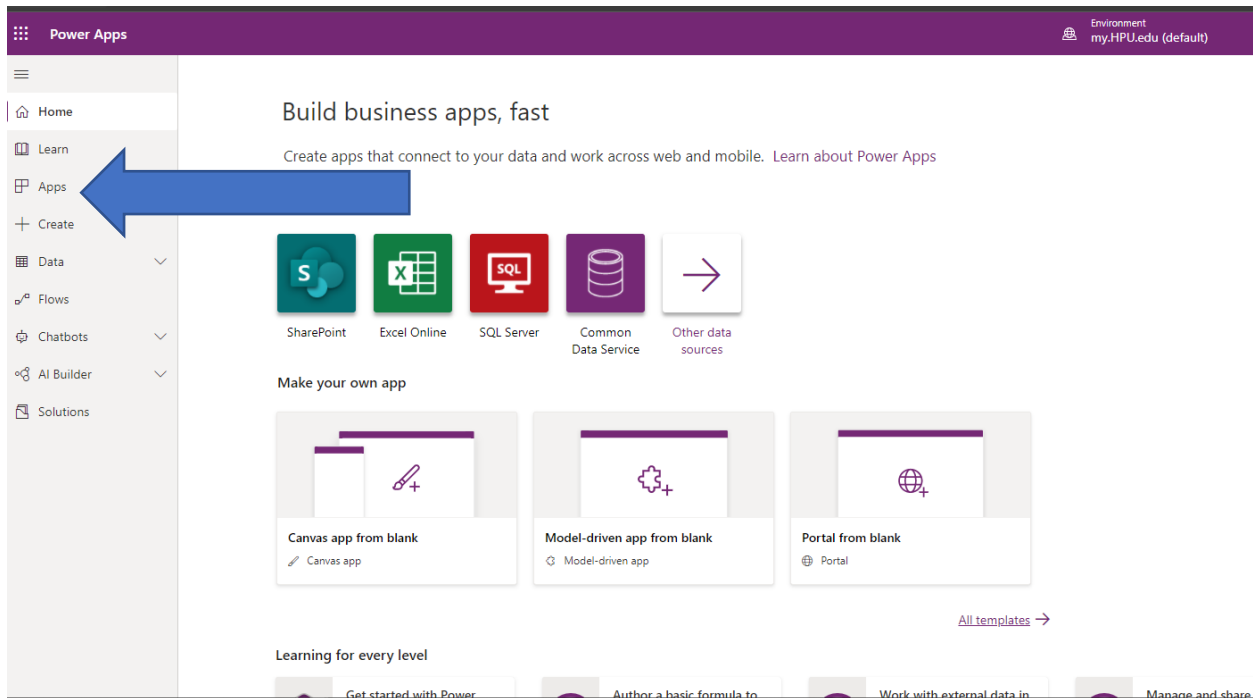

Navigate to the powerapps website and login in with your credentials, use hpu credentials if needed.

Select Apps

Select Import canvas app

The screenshot shows the Power Apps interface. In the top navigation bar, the 'Import canvas app' button is highlighted with a blue arrow. The main area displays a list of apps under the 'Apps' tab.

Name	Owner
Hawaii Reach	Daniel Post
Hawaii Social Services	Daniel Post
Hawaii Reach Out Version 1	Daniel Post
Hawaii Reach Out	Daniel Post

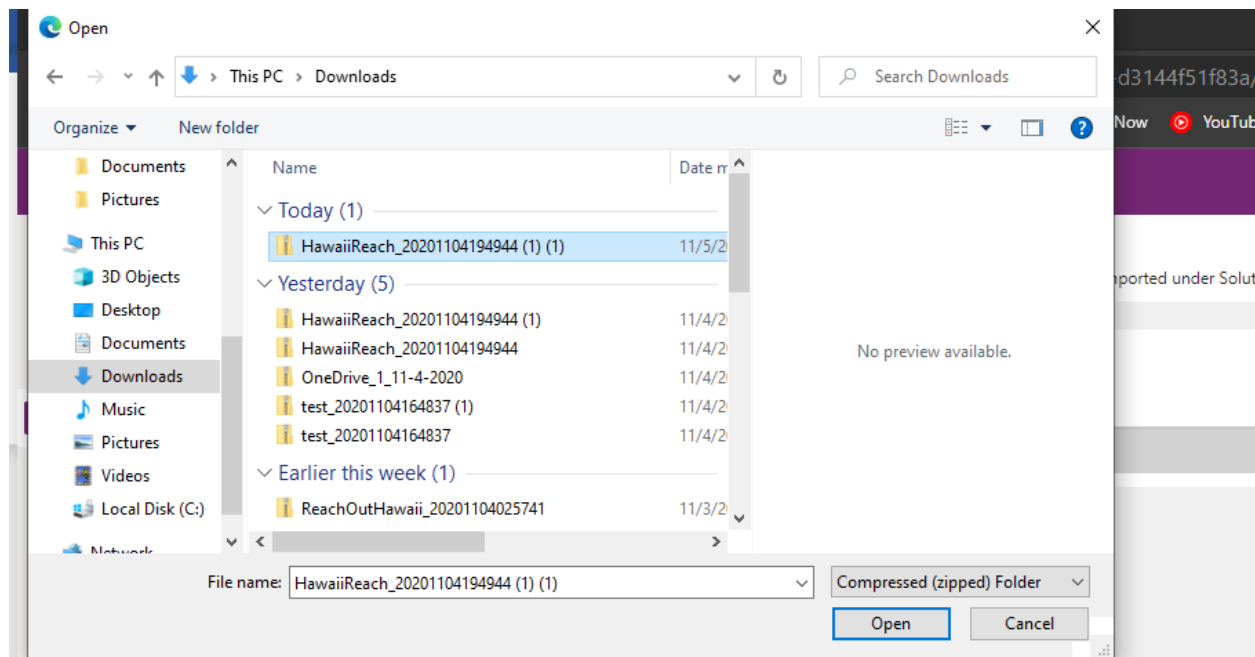

Import package

Import canvas app created outside of a solution into this environment. Apps created in a solution can be imported under Solutions. [Learn more](#)

Choose the package file to import

Upload a .zip package file

Upload

The screenshot shows a Windows File Explorer window titled 'Open'. The address bar shows 'This PC > Downloads'. The left sidebar shows the 'Downloads' folder selected. The main pane displays a list of files and folders. The file 'HawaiiReach_20201104194944 (1) (1)' is selected. The 'File name' field at the bottom shows 'HawaiiReach_20201104194944 (1) (1)'. The 'Compressed (zipped) Folder' dropdown is set to 'Compressed (zipped) Folder'. The 'Open' button is highlighted.
